

USAGE

The ideal post with hooks for movable soils and high trellising. The hooks are reinforced by an internal embossment. Durability guaranteed.

TECHNICAL CHARACTERISTICS

Nature of steel : S235JR/ S250

Type of galvanisation : Hot dipped galvanised post

Steel norm : NF EN 10025-2

Process : galvanisation after streamlining

Galvanisation norm : EN ISO 1461

Total thickness : 1.60 mm +/- 10%

Thickness of : 55.00 μ

Available lengths : 1.4 to 2.7 m
