

USAGE

The most robust anchor post thanks to its thickness. Durability guaranteed. It is suitable for the vine, ornamental/fruit trees culture.

TECHNICAL CHARACTERISTICS

- Nature of steel : S235JR/ S250
- Type of galvanisation : Hot dipped galvanised post
- Steel norm : NF EN 10025-2
- Process : galvanisation after streamlining
- Galvanisation norm : EN ISO 1461

- Total thickness : 2.20 mm +/- 10%
- Thickness of : 55.00 μ
- Available lengths : 1.8 to 2.7 m
