

USAGE

The post adapted to movable soils. The hooks are reinforced by an internal embossment. This post is suitable for wine culture as well as ornamental trees culture.

TECHNICAL CHARACTERISTICS

Nature of steel : S235JR/ S250

Type of galvanisation : Hot dipped galvanised post

Steel norm : NF EN 10025-2

Process : galvanisation after streamlining

Galvanisation norm : EN ISO 1461

Total thickness : 1.60 mm +/- 10%

Thickness of : 55.00 μ

Available lengths : 1.4 to 2.5 m
